Amendment A

Assistant Commissioner for Patents
Washington, District of Columbia 20231

Sir:

In response to the Office Action mailed 2001 Jan 11, a request for restriction to one of the inventions was required under 35 U. S. C. 121. I elect to retain Claims 2 and 3 and restrict Claim 1 from the patent application. In doing so, it was necessary to make typographical changes to keep the application consistent with the elected Claims as well as a few typographical error changes. These are summarized below. For your convenience, I have included 1) a printed version of the original application text with line references, 2) a printed version with my handwritten changes, 3) a printed version using Word change tracking, 4) a printed version with the changes as described, and 5) a computer disk with the versions above in Word format. Please use whatever of the above is best for your review.

Please amend the above application as follows:
